Notes: 1. The figures are averages for Questions 1, 3, 5, 6, 9, 10, 13, 14, 15(1), 25, and 38. The figures for the rest are the numbers of responses.

2. The monetary unit of Questions 5 and 9 is 1,000 pesos for the Philippines, 1,000 S\$ for Singapore, 1,000 M\$ for Malaysia, 1,000 baht for Thailand, 1,000 US\$ for Indonesia, Hong Kong, and Taiwan, and one million won for Korea.

3. Sales in Question 9 are for 1980.

4. In a few cases, the number of responses is not an integer. This is because, in a question in which only one item should be chosen, two or more items were chosen. In such responses, (1/n) was assigned to each item chosen, where n is the number of items chosen.

5. For Korea, the second category is "production technology managers" and the third "other managers."

6. The monetary unit is pesos for the Philippines, S\$ for Singapore, M\$ for Malaysia, baht for Thailand, US\$ for Indonesia, 1,000 HK\$ for Hong Kong, 1,000 NT\$ for Taiwan, and 1,000 won for Korea.

7. Unless specified otherwise, figures in parentheses are percentages. For item i in question j, the percentage =  $100 \times (\text{the number of people who chose item i} / \text{the number of people who answered question j})$ .
